this past year in adding to the interes: of the National Parks.

Many new trails have been laid out in Glacier so that interesting places heretofore inaccessible may now be visited. Automobiles are universal now in Yellowstone, taking the place of the uncomfortable and slow-going horse stages, a matter for rejoicing by visitors, and the "Cody Road"-

eastern exit from the Yellowstone—
has been perfected so that its marvelous scenery can be viewed from
comfortable automobiles, over glorious Shoehone Canyon. Don't miss
the Cody Road!

Let me tell you in detail of the
opportunity to visit Giacler, Yellowstone, Cody Boad, Rocky Mountain
(Estes) Park, Denvey and Colorado
Springs (with Pikes Peak and Gazden of the Gods near by) all on the
lines of a single great railroad system—the Burlington Route—the big,

The inconvenience of writing his name. Albert Helmuth Ludwig Wilhelm Strohkirch, to checks and letters led Strohkirch yesterday to ask the District Supreme Court to allow him to use a shorter name. Amsterdam, June 6.—A decree has just been issued by the German military authorities granting full pardon to all deserters that return to the German ranks before July 15. The decree concludes:

High School Relief Project.

The Board of Education, at a meeting yesterday, again declined to sanction directly any collection for charity purposes among the children in the public schools. An appeal for all from the Alley Improvement Association Day Nursery was under consideration, and the members were inclined to favor the request.

It was decided, however, that the board could not afford to establish any precedent in the matter of allowing such collections.

The report of Superintendent Thurston, which was read, sproved of the plan of the Western High School to establish a hospital in France for the sick orphans made destitute by the war. Mr. Thurston also recommended that the Cranch-Tyler Home and School Association be allowed to establish their proposed lental clinic in those two school buildings.

Communications were read from the Northwest Citizens' Association, asking for the purchase of the property in the rear of Ludlow School as a playground, and from the alumni of Hamilton College, requesting the addresses of high-school graduates, so that literature about the college might be sent to them in the fall. Both questions were referred to the superintendent.

Appeal for Protection

"Protect us from a fate similar to that of Belgium."

This was the appeal addressed to President Wilson yesterday by the Franco Dusom Bourgeois Committee made up of refugees in Paris from the Duchy of Luxemburg.

The petition was forwarded by American Ambassador Sharp at Paris. It recites the wrongs suffered by Luxemburg at the hands of the Germans. "We have been subjected to the greatest cruelties," says the appeal. "Our railroads have been made use of by the invader, our nationals taken prisoners, our factories diverted to the United States to save us from a fate similar to that of Belgium."

KENNEDY SHOW CROWD

Big Attraction on Union Station Plaza During Throngs.

There have been many excellent outdoor amusement organizations in Washington, but none of them have given greater satisfaction or exhibited to more people than the Con. T. Kennedy shows. The people of this city have patronized the shows liberally, and have remained on the grounds until late at night.

The Kennedy shows are larger than any of this kind ever here, and each attraction is pleasing. The best proof of the popularity of the Kennedy shows is the manner in which the attendance has increased each afternoon and night. Even the rain of last night falled to dampen the spirit of the enthusiasts, and quite a few braved the elements. The waterproof tents sheltered them from the rain and wind, and they had but a few feet to walk, going from one attraction to the other.

The shows were brought to this city by the Confederate veterans, and will remain for the balance of the week, giving performances every afternoon and night.

Today the commission will examine witnesses in rebuttal, and final arguments will begin tomorrow. It is said that the commission would hold Saturday sessions until the question is settled, so great is the mass of testimony to be reviewed.

Republicans had planned to move to discharge the committee which has it in charge, and which the Republicans charge have buried it.

However, Claude Kitchin, the Democratic leader, saw the chance to spike the Republican guns. The resolution allowing a relative of former President Buchanan to erect a statue of him was brought up. Representative Miller, of Minnesota, a Republican, made the point that Democrats had agreed to transact none other than war business at this session. Immediately Leader Kitchin moved to lay upon the table Republican Leader Mann's motion to discharge the committee baving the Rankin amendment in its care. The mo-
